### Patient Payment Policy & Agreement

Thank you for choosing our practice. We are committed to the success of your medical treatment and care. Please understand that payment of your bills is part of this treatment and care. For your convenience we have answered a variety of commonly asked financial questions below. If you need further information about any of these policies, please ask to speak with our Financial or Insurance Specialists.

**Limitations of Practice:** Patient understands that Dr. Laquis specializes and limits his practice to ophthalmic plastic and orbital surgery. He does NOT provide general eye care or examinations or treat such conditions such as glaucoma or retinal problems, nor will he provide prescriptions for glasses.

**Patient Consent:** Patient hereby gives consent, if needed, for drawing blood samples for diagnosis or in the case of an accidental puncture or exposure of medical personnel during course of treatment either in the office or hospital. These tests may include AIDS testing.

**Insurance Claims Filing:** In all cases the patient is responsible for payment of their account. As a courtesy we will file a claim to the insurance carrier.

**Assignment and Release:** Patient hereby authorizes and assigns applicable insurance benefits to be paid directly to the physician. Patient is financially responsible for non-covered services. Patient authorizes release of information necessary to process insurance claims. Patient authorizes photographs to be restricted for medical, education or insurance purposes. Information released to other practitioners is in a good faith effort to improve medical care.

**Do I need a referral?** If you have an HMO plan with which we are contracted, you need a referral from you PRIMARY care physician. If we have not received an authorization by the time of your office visit, you will either need to re-schedule or your account will be considered a self pay (no insurance) and will need to be paid in full at the time of service. Again, the patient, not Dr. Stephen Laquis' office, is responsible for obtaining the referral in writing.

It is also the patient's responsibility to verify that Dr. Laquis is an In-Network Provider with their insurance company. Patients will be financially responsible for any Out-of-Network fees.

**Authorizations for Surgery:** Ultimately, the patient is responsible for verifying that all office visits and procedures, including surgeries, are authorized and approved by their insurance carrier. We will submit for approval for all pre-determinations, but the patient must verify with their carrier the authorization is on file. Failure to do so may result in the patient being responsible for any balance.

**Unpaid Balances:** All patient balances are due in full 30 days after insurance payment has been paid. If for any reason the patient cannot make acceptable payments, they must contact the office immediately for arrangements. Dr. Laquis reserves the right to refer all unpaid balances to either a collection agency, or in the case of a large balance, legal representation. Any fees associated with collections, including agency fees, court and attorney fees, will be added to the patient balance. After an account is placed with a collection agency, all further visits will be at the practice's discretion and on a cash only basis. Any account 60 days past due will begin to accrue at \$45 per month late fee.

**Credit Card Payments:** The fraud transactions from patients who dispute charge back for credit card amounts or dispute the payment will be prosecuted by the law and have to pay all legal and liability. In addition, a \$100 bank fee will be assessed for any attempt at charge backs with credit card payments.

**Please turn over and sign the back side of this form.**
